

## Cat's happening in the CSN!

[Cats of the CSN](#) edition

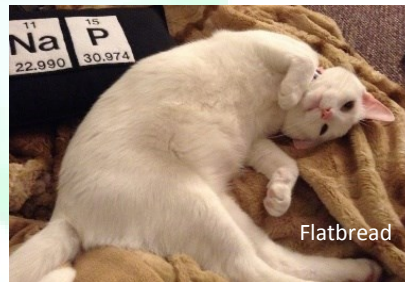

### Milestones

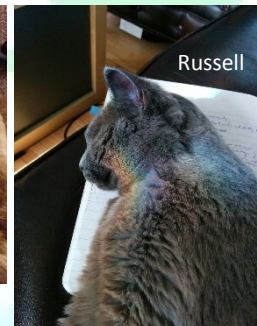

Theo (Laudadio group) recently learned to poop in a litter box! Congrats Theo!

### Productivity

Flatbread (Foreman-Ortiz group) and Russell (Krause group) recently spent a whole lotta time doin' nuthin'. Both of these comfy kitties have been recognized for their landmark contributions in this area.

$22.990 + 30.974 = \text{Zzzzz}$ .

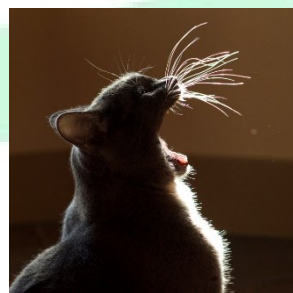

Kero spends time chewing on a new project

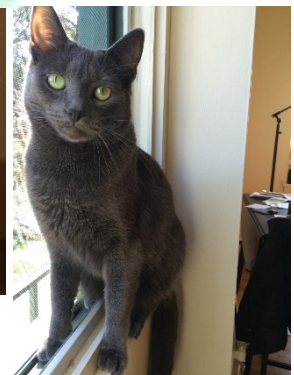

Kero (Hang group) recently completed her goal of pulling all the stuffing out of a stuffed Elmo toy. She hopes to have the eyes removed before Valentine's day so she can present them to Mimi with a freshly killed mouse.

### Kitty Talk

Blue (Laudadio group) recently gave a presentation titled "Meeeoowwww!!" on the ledge of the window. Blue provided a unique glimpse into the frustration of squirrels and the invisible wall that keeps us from playing with them to death. Collaborator Greylock (Clement group) also presented a talk entitled "RRARRR!"

Greylock (above)  
and Blue (right)

## ***Catnip Development Opportunities***

***Don't eat that!*** Totoro (Hang group) recently gave a hands-on demonstration with his "Swelling Sam" emergency training toy. The workshop addressed the dangers of eating things that cause allergic reactions and how you can playfully bat swollen friends around the room.

Totoro and "Swelling Sam"

Wednesday signs a copy of "Where is it?"

***Catching the bouncing red dot?*** Have you ever spent your time chasing a little red dot all over the living room, up walls, and into closed doors? **Wednesday (Hudson-Smith group)**, the award winning author of "Where is it?", provides insight into why the little red dot always seems out of reach and how cats can unite to solve this maddeningly fun and addictive problem.
